SUBJECT INDEX

Acetylene

A.K. Bhattacharya and M.A. Chesters, Ethylene and acetylene adsorption on Fe(110) studied by Auger electron spectroscopy 186 (1987) 279

Alkali halides

T. Yasue, A. Ichimiya and S. Ohtani, Electron stimulated desorption of positive ions from alkali halide surfaces 186 (1987) 191

Alkali metals

C.T. Campbell and B.E. Koel, A model study of alkali promotion of water–gas shift catalysts: Cs/Cu(111) 186 (1987) 393

C.M. Greenlief, P.L. Radloff, S. Akhter and J.M. White, Potassium and its coadsorption with carbon monoxide on Pt(111): a SSIMS/TPD study 186 (1987) 563

Alloys

D. Khatamian and F.D. Manchester, Mössbauer spectroscopy of activated FeTi. II. Products of activation to 500°C 186 (1987) 309

Aluminium

A. Fritsch and P. Légaré, Photoelectron study of planar alumina growth on polycrystalline aluminum 186 (1987) 247

V. Di Castro and G. Polzonetti, Thin Cu films on aluminium: a photoemission investigation 186 (1987) 383

Atom scattering

S. Tsuneyuki, N. Shima and M. Tsukada, Band effect on the charge exchange process at solid surfaces 186 (1987) 26

Auger electron spectroscopy

A.K. Bhattacharya and M.A. Chesters, Ethylene and acetylene adsorption on Fe(110) studied by Auger electron spectroscopy 186 (1987) 279

E.G. Keim and A. van Silfhout, The adsorption behaviour of O_2 on the clean Si(110) surface in the early stage 186 (1987) L557

H. Tokutaka, K. Nishimori, J. Matsuura and V. Pinet, Scanning Auger electron microscope resolution determined by a quantitative AES method 186 (1987) 339
J.G. MacMillan-Jones, F.A. Londry and A.J. Slavin, Oxygen uptake by thin lead deposits on polycrystalline gold 186 (1987) 357
A. Santoni and J. Urban, AES and EELS investigation of carbonaceous layers on Cu(110) and Cu(100) 186 (1987) 376
C.T. Campbell and B.E. Koel, A model study of alkali promotion of water–gas shift catalysts: Cs/Cu(111) 186 (1987) 393
J.P. Petrakian and P. Renucci, Theoretical analysis of AES depth profiling in multilayers. Application to C/W multilayers 186 (1987) 447

Carbon

V. Matolin, E. Gillet and N. Kruse, Steady carbon formation during CO oxidation over small Pd particles: a static SIMS study 186 (1987) L541
A. Santoni and J. Urban, AES and EELS investigation of carbonaceous layers on Cu(110) and Cu(100) 186 (1987) 376
J.P. Petrakian and P. Renucci, Theoretical analysis of AES depth profiling in multilayers. Application to C/W multilayers 186 (1987) 447

Carbon monoxide

V. Matolin, E. Gillet and N. Kruse, Steady carbon formation during CO oxidation over small Pd particles: a static SIMS study 186 (1987) L541
W. Reimer, Th. Fink and J. Küppers, Inverse photoemission of CO, H and H/CO adsorbed at Ni(100) surfaces 186 (1987) 55
R. Dovesi, R. Orlando, F. Ricca and C. Roetti, CO adsorption on MgO crystals: Hartree–Fock calculations for regular adlayers on a (001) lattice plane 186 (1987) 267
